

KHAANA BANK TRUST

About Us

We are a dedicated social non-governmental organization (NGO) committed to addressing the pressing issue of food waste and management. With a vision of creating a world where no food goes to waste and every person has access to nutritious meals, we strive to implement sustainable solutions at the grassroots level.

Mission

Our mission is to raise awareness about the detrimental effects of food waste on the environment, economy, and society. Through education, advocacy, and community engagement, we aim to promote responsible consumption, minimize food waste generation, and maximize food recovery for those in need.

Approach

We adopt a multi-faceted approach to tackle food waste and management challenges. This includes collaborating with stakeholders across the food supply chain, implementing innovative technologies and practices for food preservation and redistribution, and empowering individuals and communities to adopt mindful eating habits.

KHAANA BANK TRUST

Key Initiatives

Food Recovery Programs: We partner with food retailers, restaurants, and farms to rescue surplus food that would otherwise be discarded and redistribute it to local food banks, shelters, and community organizations.

- **Educational Campaigns:** Through workshops, seminars, and awareness campaigns, we educate individuals, businesses, and policymakers about the importance of reducing food waste and implementing sustainable food management practices.

- **Policy Advocacy:** We advocate for policy changes at the local, national, and international levels to incentivize food waste reduction, promote food recovery efforts, and support initiatives that address food insecurity and hunger.

Impact

Since our inception, we have made significant strides in reducing food waste, alleviating hunger, and promoting food security in our communities. Through our collective efforts, we have diverted millions of pounds of edible food from landfills, provided nutritious meals to vulnerable populations, and inspired positive behavioral changes among consumers and businesses alike.

Join us in our mission to combat food waste and ensure a more sustainable and equitable future for all. Together, we can make a difference, one meal at a time.

Life of Jeevan a cute Child

JANUARY 2019

A few months ago I met this child outside my office. Since then, every month we used to give some ration to him and his family. And today we saw the "life" of #Jeevan closely. We went to the village where this child lives with his family and met his friends and family members. We also gave food grains (20 kg rice) and some warm clothes to the children.

Those who make laws for us have a different life. They cannot live without AC, sofa and pizza. That is why perhaps 70% of India's population is still untouched by basic needs like better education.

Of course, there will be no electricity in the village, we will have to light lanterns. We will not get a roof, we will have to find the shade of a tree. We will not get all those facilities which are easily available in cities, but we have to remain firm on our stubbornness.

This will be the beginning of change!!

#War_against_hunger. #effort_till_the_last_breath

Shelter House for the needy ones

The cold has increased a lot. In this season, it is necessary that we all come together and help that section of the society which is not able to protect itself from this cold. You must help the needy a little bit according to your convenience.

In view of the above, a rain basera was built by Khana Bank Trust on the side of the railway over bridge. In this effort, members Rohit Singh, Atif Farooqi, SiyA Gupta Rajesh Jaiswal, who constantly support the organization, cooperated.

In the joy of the construction of the rain shelter, sweets were distributed among all the needy and clothes were given by the young member of the organization, Sooraj Gupta.

Working during the lockdown(Pandemic)

Working during the lockdown was quite challenging for us, despite this we faced it bravely. During the pandemic, the administration and the local people were very supportive. In this difficult time, we were ready to serve the needy 24 hours a day. During these challenging days, our self-confidence kept increasing, which kept giving us constant energy. Throughout the lockdown, our team was successful in feeding an average of 500-600 people every day. Along with this, we provided our services when there was a need for medicines, oxygen cylinders and blood.

Shadi nahi Sandesh

Shaadi Nahi Sandesh(A marriage like this too) I was more happy to attend this great wedding than I had heard. Got a chance to represent Khana Bank Trust by attending the wedding of Ghaziabad's passionate journalist elder brother Jasvir Singh Jassi ji (news anchor,Hindi khabar) and his wife Sudha Sav ji. A wedding where many social workers and institutions from different corners of the country were present. In this great wedding conducted with utmost simplicity, the bride and groom welcomed and honored all the social workers and also distributed new clothes with their own hands to all the #needy people who came to attend this unique wedding.

Eco-Bricks

Guidance by Prof.Dr. Pradeep Kumar Mishra sir & Krishna Mohan sir

Deepawali is a festival of culture and light, it is celebrated not only in India but all over the world.

Let us contribute this year in making this festival bigger and increasing the pride of the country. Collect all types of plastic used in homes, big and small, and make EcoBricks from it. Along with the festival, also participate in environmental protection and promotion. Celebrate a unique festival of lights.

In this sequence, the initiative was started by Khana Bank Trust by planting a sapling in the courtyard of Children Happy Home school located in Subhash Nagar of the city and its bed was made using EcoBricks.

Vijayadashami (Dussehra) Celebration

Vijayadashami (Dussehra) a festival symbolizing the victory of dharma over adharma, victory of truth over falsehood and victory of Shri Ram ji over Ravana.

On the said occasion, Khana Bank distributed sweets, fruits and toys among small children in the slums of the city.

Before distribution, we purchased the materials from those vendors who are at the bottom of the ladder. During this, myself, Praveen Agrahari, Ashutosh Jaiswal, Vishnukant, from the Sanstha were present.
